

CRESTWOOD FARM BREEDING SHED REQUIREMENTS

All Mares must have a current Mare Information Sheet on file with the office before the mare will be booked. **All Mares** must have proper identification when being presented for breeding (halter or neck strap with name). Without proper identification and paperwork, the mare will not be bred. **All Mares** must be vaccinated for Equine Herpes Virus Type-1 (i.e. Rhinomune, Pneumabort-K, etc.) from 7-90 days before breeding. A statement from your veterinarian must accompany the mare to the breeding shed.

Domestic Foaling Mares require no additional tests for first cover.

Barren and Mares Not Bred Last Year must provide a negative aerobic (regular) uterine culture dated within 30 days prior to cover.

Maiden Mares must provide a negative aerobic (regular) uterine culture dated within 30 days prior to cover; and must be jumped before coming to the breeding shed.

All Returning Mares for a third breeding (exclusive of doubles) will be required to provide a negative uterine culture taken after the second breeding.

Imported Foaling and Barren Mares please contact the State Veterinarian's Office in Frankfort Kentucky regarding the proper procedures and acquisition of the Quarantine Releases for the current breeding season. A copy of the Release must accompany the mare on her first trip to the breeding shed.

Imported Maiden Mares must comply with the current USDA and Kentucky Department of Agriculture regulations; and must be jumped before coming to the breeding shed.

Crestwood Farm complies with the current regulations set forth by the USDA and the Kentucky Department of Agriculture regarding CEM/EVA Requirements.

All Stallions have been vaccinated against EVA for the current breeding season.

Please contact Crestwood Farm should you have any question regarding the above mentioned requirements.
